

Help *your*
patients stay
independent
longer.

with MedX Services

medication management + clinical oversight with MedX Services

We are a group *of* passionate caregivers, clinicians, *and* health professionals.

We offer medication management and clinical oversight that connects people through technology to provide better care. We work with spencer, a cloud-based, at-home medication tool, to provide accuracy and efficacy to those in our care.

MedX Core Services

Medicine Management

Concierge

Relief

Hello, I'm spencer

With me, a handful of pills is no longer a handful. And that's a good thing. Because when medications aren't taken properly, you're more likely to be hospitalized. But I can help. I'm the advanced in-home medication dispenser and seriously connected health partner. **I'm the future of connected care.**

spencerAssist™, an app for iOS and Android, allows staff, caregivers & families to stay up-to-date on their patient's medication management program.

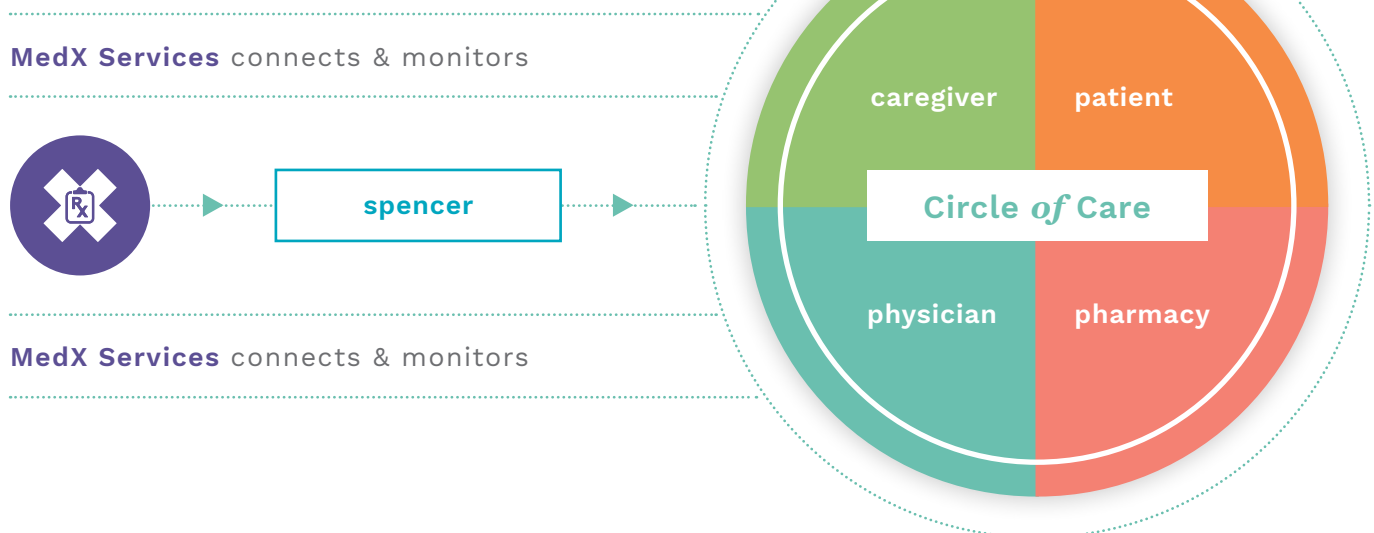

How it Works

Looking for state of the art medication technology for your patients? **MedX Services can help.** We know you want the best for your patients and know that compliance is key. Our Connected Care Technology keeps you connected to your patients. We help you keep them on the right track regarding medicine-adherence to deliver **the best possible outcome, while reducing liability and cost.**

The Process

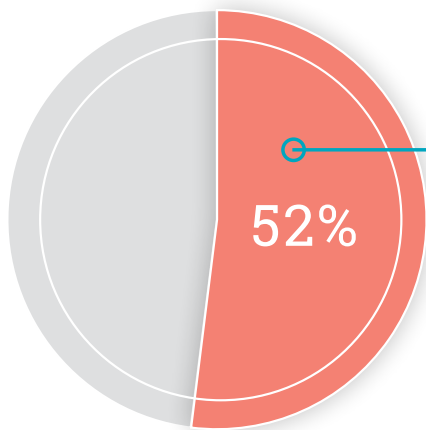

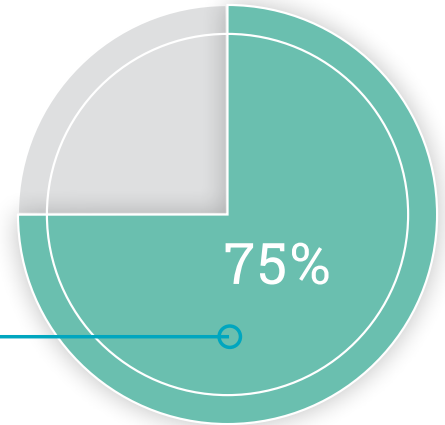

Step 1	Comprehensive patient evaluation
Step 2	Transition to services 1. Prescription updates 2. Pharmacy & physician communication 3. Staff training
Step 3	Go live — delivering the first spencer cartridge
Step 4	Continued clinical oversight & patient support

Connected Care

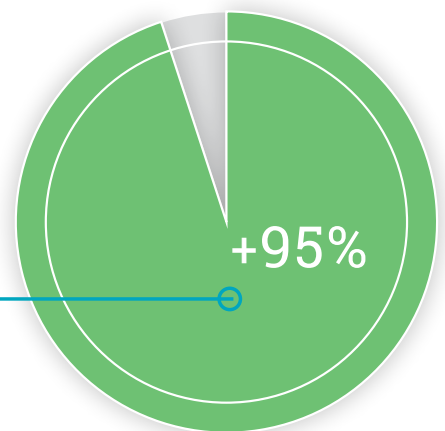

Did you Know?

Medication errors are the cause of over **75% of all hospital readmissions**.¹

52% is the current national medication adherence rate.²

MedX Services has an overall patient adherence rate greater than **95%**.³

By the Benefits

Benefits Analysis Chart

Right patient, right dose, at the right time

Keep patient's independent longer

Increase insurance reimbursement/CMS codes

Utilize 24/7 remote patient monitoring (RPM)

Receive data on patient's medication schedule, vitals & questionnaire prior to appointment

Avoidance of unnecessary resident hospital visits due to poor medication management

Peer Review

“A truly connected health care partner, spencer doesn’t just dispense the right medicine at the right time; it dispenses comfort and peace of mind. When a patient or loved one misses a medicine does, has an elevated blood pressure or elevated blood glucose readings, or answers insight questions, spencer **will alert everyone in that patient’s circle of care.**

This, in turn, can give us insight into how the patient is feeling. This gets relayed back to the pharmacist, caregiver, clinician, and MedX Services to make sure **the best care is being delivered.**”

Dr. Charles Crump

Internist, Parkridge Medical Group
